LightCap 200 and LightCap 300 – Davis Instruments

The LightCap 200 provides illumination from any bottle with a 2" mouth opening by turning it into a solar lantern. The LightCap 300 is a BPA-free plastic water bottle complete with solar cell and internal storage battery built into the 3-inch cap. Both caps provide bright light by using four white LEDs and provide up to 15 hours on a full charge, according to the company.

For more information, visit their website. These products will be available in Canada.

Ergo Grip Extension Cords - Conntek

Repetitive tasks like unplugging an RV power cord can result in pain, particularly for those with conditions marked by wrist and hand weakness. According to the company, the ergonomic design of Ergo Grip products reduces hand fatigue by increasing user comfort and leverage. Injection molding ensures all-weather operation, durability and impact resistance. Conntek also supplies Ergo Grip generator adapter cords. These products are available on Amazon.ca.

Super Rope Cinch® – Just Right Products LLC

The Super Rope Cinch® is a new way to tie rope without tying or untying a knot. It secures ropes with a simple twist. According to the company, the Super Rope Cinch® can hold a great amount of vertical or horizontal pressure, yet it can be tied and untied in less than a second with a simple twist. Use it for tying boats, tents, luggage, backpacks, tools, canoes and anything else you fasten with ropes. It will be available in Canada at Home Depot and Walmart.
